

Project Design Phase
Proposed Solution Template

Date	02 October 2026
Team ID	SWTID-2026-3464
Project Name	FitBuddy – AI Fitness Plan Generator using Gemini Models
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Users often struggle to create personalized workout routines that match their fitness goals, preferred workout intensity, and individual needs. Generic workout plans may not provide suitable guidance for exercise, nutrition, and recovery.
2.	Idea / Solution description	FitBuddy is an AI-powered web application that uses Gemini AI to generate a personalized 7-day workout plan based on the user's name, age, weight, fitness goal, and preferred workout intensity. Users can also provide feedback to update their plan and receive nutrition and recovery guidance.
3.	Novelty / Uniqueness	FitBuddy combines personalized AI-generated workout planning with feedback-based plan modification. Instead of providing only a fixed workout routine, it allows users to update their plan according to their feedback and fitness requirements.
4.	Social Impact / Customer Satisfaction	FitBuddy can make fitness planning simpler and more accessible by providing easy-to-follow workout, nutrition, and recovery guidance. Personalized plans can help users better understand their routine and stay motivated toward their fitness goals.
5.	Business Model (Revenue Model)	The basic version can be offered as a free fitness planning service. Future revenue can come from premium personalized plans, advanced fitness features, subscriptions, partnerships with gyms or fitness platforms, and other optional services.

6.	Scalability of the Solution	FitBuddy can be scaled by supporting more users, additional fitness goals, workout types, progress tracking, reminders, and advanced AI-based personalization. The application can also be deployed on cloud infrastructure to support increased usage
